Aaron Carlson Architectural Woodwork

**RE:** Center For Changing Lives  
Minneapolis, MN.

To Whom It May Concern,

I gives me great pleasure to write this letter of recommendation for Nick Schwalbe, your project manager for Aaron Calson. Nick has led the above mentioned project for your firm. Nick has proven to be a great team player and do what ever it takes to get the project done. He has attended several meetings with the architect, interior designer, Weis Builders, and the client. There were quite a bit of changes due to value engineering, and owner changes on this project. Nick worked thru these like a champion. He was always pushing all of us for answers to maintain our delivery dates, always keeping us in the loop on the status of deliveries. He went out of his way to deliver misc. items that we needed that arose. If there were any design issues that did not appear were going to work due to field conditions, he would come out and help us work thru the problem for a quick and reasonable cost. He was able to deliver all product on time, which in turn help us maintain our schedule. I strongly recommend Nick and your firm to bid on any future project. The quality of the material that you supplied was fantastic!

Sincerely,  
**Weis Builders, Inc.**

**Curtis Olson**

A handwritten signature in black ink that reads "Curtis Olson".
